Bird List

Karawari Lodge and Sepik River

Listed in systematic order are the common and scientific names used in the Birds of New Guinea by B. M. Beehler, T. K. Pratt & D. A. Zimmerman. Those birds with an asterisk beside the common name have been sighted in the area and those without are species that should certainly be in the area as indicated by the ornithological literature. Other birds, as indicated by +, are possibly in the area but their presence requires confirmation. This gives a total of 229 species.
